2019

Apex Series 5 MAX

Apex Series 4

Apex Series 3

Evolution Series

Premier Tents offers a complete line of canopies, tents, and weighting systems with truly exceptional design, form and function.

In 1988, we set out to design a canopy different than any other, one that would offer unmatched performance and reliability while retaining its portability and easy setup. We succeeded, and in 1989 the Apex Series canopy system was born.

From the beginning, Premier Tents has been a leader in innovation. We were among the first in the industry to feature advanced technologies and materials in all of our frame and top designs. Innovative aluminum and stainless steel materials augment our already rugged and durable steel frame designs. Advanced high performance synthetic textiles that offered better water resistance, stronger UV resistance and most importantly, longevity and durability.

Never being satisfied with just good enough, we strive to constantly improve our products and our designs to remain ahead of the industry. Our goal is to be the leader in designing and producing new and innovative products. We are pleased to announce two new cutting-edge HEXAGON frames, HEX 40 and HEX 50. With ultimate durability in mind, we offer frames with hexagon shaped legs and double reinforced trusses to withstand the worst elements Mother Nature can throw at it.

We have further developed and expanded our weighting system offerings in our Gravipod® line. Over the years our Patented Gravipod® line of weighting systems has now grown to over 10 different models to cover a vast array of items, for indoor or outdoor use.

Today, we stay true to our heritage but continue to evolve as both a brand and company. Premier Tents is the World leader in outdoor shelters and weighting solutions.

Accessories

Solid Sidewalls

Offers year round protection for your adventures, available in 8 colors.

Did you know?

Premier Tents Apex Series sidewalls can be mixed and matched for just the right configuration. Each wall has zippered edges that will mate up to any other Apex Series sidewall.

Window Sidewalls

A room with a view! Block wind or rain, but lets the light shine through.

Mesh Sidewalls

Lets the afternoon breeze in, but keeps the bugs out.

Customize It!

We can print your walls!

Vendor Walls

Half height walls are the perfect way to both advertise and control crowds.

Roller Bags

Allows for easy transport on smooth rolling wheels.

Flags

Teardrop, Feather, or Wave style flags.
Available in heights from 6' - 21'

Gutter Systems

Allows you to use multiple canopies together without rain dripping down.

Carry Bags

We offer a wide variety of carry bags to fit your canopy system and lifestyle.

Leg Drapes

Dress up your tent to give it just the right look, specially designed to fit Apex Series canopies

Tablecover & Drapes

Available for 6' or 8' tables, and as either fitted tablecovers or free flowing table drapes. Custom printing available

Accessories
